FOR IMMEDIATE RELEASE

Chance Rides Completes Production of the First Sunliner II People Mover.

Wichita, Kan. — The latest addition to of Chance Rides people movers is now on the market. Chance Rides first introduced the Sunliner™ series of trams in 1977. They were known industry wide for smooth reliable transportation for guests at all attractions.

Thirty-five years later Chance Rides has brought the Sunliner™ name back to the tram industry with the completely redesigned Sunliner™ II. It is built with the reliability that Chance is known for including features like air-ride suspension and air-over-hydraulic brakes, a low deck entry of 13" for easy access. And because the Sunliner™ II is built on the chassis of a Ford E-350 you have the flexibility to have repair service completed by any Ford authorized dealer as well as a reliable warranty of 3 years or 36,000 miles. The Sunliner™ II gives you a total capacity of up to 116 people with 3 trailing units. The easy to use hitch system allows for quick connecting and disconnecting of trailing units as needed.

Throughout September and October the Sunliner II will be making its way across the country on a demo tour. If you would like to see what the Sunliner II could do for your attraction give us a call and we'd be happy to arrange a tour for you as well. Chance Rides will have the Sunliner™ II on display at the IAAPA Attractions Expo in Orlando, FL, booth #4824, November 12-16th, 2012.

Chance Rides, Inc. is a family owned business located in Wichita, Kan. For more information about Chance Rides products, visit chancerides.com.
