

Chance Rides Manufacturing, a family owned and operated company located in Wichita, KS has been delivering entertainment to the amusement industry since 1961. We take pride in being a leading manufacturer of amusement rides and people movers worldwide.

For over 60 years, Chance Rides has been at the heart of manufacturing excellence in the amusement industry and we are committed to continuing that standard of excellence for many more years to come.

As we continue to grow and manufacture new and exciting product lines, we are currently seeking an experienced individual to join our team for the following position:

Manufacturing Engineer

General Purpose:

Develops and improves manufacturing processes by studying product and manufacturing methods. The Manufacturing Engineer will plan, design, set up, modify, optimize, and monitor manufacturing processes. Role also includes managing various projects both internally and externally.

Description of Job Duties/Responsibilities (including but not limited to):

- Evaluate existing manufacturing processes and workflows to identify areas that could benefit from changes and improvements.
- Generate and modify manufacturing process documentation and assure that manufacturing processes and related documentation follow established policies and procedures
- Design and develop manufacturing procedures, tooling, fixtures, etc. that result in sufficient capacity to meet customer demand while also promoting product quality, process efficiency and safety
- Improve manufacturing efficiency by analyzing and planning workflow, support and production needs
- Lead various sized projects either process improvement or customer product
- Prepare product and process reports by collecting, analyzing and summarizing information
- Devise and implement cost saving measures; create processes and procedures to help meet budgetary goals as well as performance quotas. Meet >3% inflation offset cost savings per year.
- Utilize LEAN, Six Sigma or other best practice tools and principles for day-to-day problem solving and continuous improvement
- Design and develop new products and product mock-ups alongside the team
- Educate and train employees on manufacturing and workflow processes and procedures
- Participate in brainstorming sessions and cross-departmental meetings to ensure collaboration and cohesion.

Preferred Requirements/Education:

- Bachelor's in manufacturing, industrial, mechanical or related engineering field
- Ideal candidate will have at least 3 years of manufacturing experience; at least 1 year in an engineering role
- Must be able to communicate effectively in both verbal and written communication.
- Strong skills in MS Office Suite
- Master problem solver familiar with root cause analysis techniques (Six Sigma / Lean training a plus)
- Experience with ERP Software (Global Shop preferred)

Chance Rides Offers:

- Competitive salary (commensurate with experience)
- Comprehensive benefits including medical/dental/vision
- 401(k) with company match
- Flexible Spending Accounts
- Personal, Vacation and Holiday Pay

Other Duties:

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.
