## CHANCE RIDES CAROUSEL FIGURE TIERS

### Introducing New Carousel Figure Tiers: Silver, Gold and Platinum

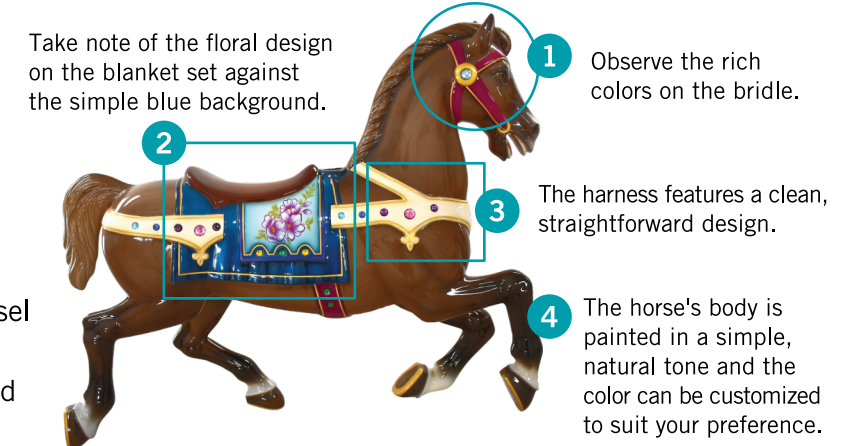

At Chance Rides, we know that every carousel tells a story—and the figures are the heart of that story. To help you find the ideal match for your vision and budget, we now offer three tiers of hand-painted detail: Silver, Gold and Platinum.

Explore the differences in craftsmanship and artistry across each tier by comparing the following features of our carousel horses:

- 1 Bridle 2 Blanket 3 Harness 4 Body

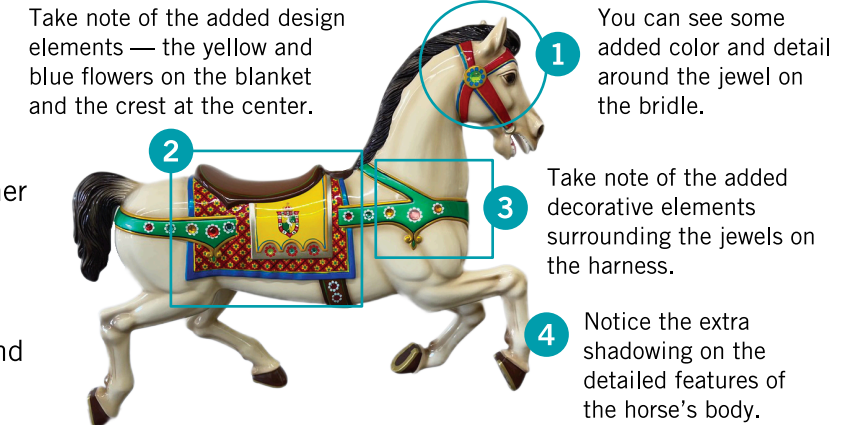

#### SILVER TIER

Our Silver carousel figures feature beautiful, classic designs with essential hand-painted details. These figures maintain the timeless charm you expect from a Chance Rides carousel while offering an accessible price point — perfect for projects where you want quality and tradition without the extra embellishments.

#### GOLD TIER

The Gold tier takes craftsmanship a step further with enhanced paintwork, additional shading, and finer detailing. These figures offer a more vivid, lifelike appearance and are ideal for locations where you want your carousel to stand out just a bit more.

#### PLATINUM TIER

Our Platinum figures are the pinnacle of carousel artistry. These premium pieces feature the most intricate hand-painted designs, custom accents and rich layers of detail. They're designed to be showstoppers — ideal for signature attractions or installations where wow-factor matters most.
